

Molecular Immunology Lecture

for students in Biology and Biochemistry

Summer semester 2025

Wednesdays, 13:00 - 14:30

Institut für Experimentelle Tumorforschung, Seminar room 317

Dates	Lecturer	Topic
16.04.2025	Modern Methods in Immunology	M. Rasa C. Peters A. Hutloff
23.04.2025	Antigen-specific T cells in immune pathology, infection and cancer	I. Ogunsulire
30.04.2025	B cell differentiation and the germinal center response	A. Hutloff
07.05.2025	$\gamma\delta$ T cells – allrounder of the immune system	D. Wesch
14.05.2025	Mucosal immunology	P. Hofmann P. Bacher
21.05.2025	Immunological memory	L. Bauer
28.05.2025	Neuroimmunology	C. Saggau
04.06.2025	Regulatory T cells	A. Scheffold
11.06.2025	Autoimmunity and targeted therapies	L. Bauer
