

Molecular Immunology Lecture

for students in Biology and Biochemistry

Summer semester 2024

Wednesdays, 13:00 - 14:30

Institut für Experimentelle Tumorforschung, Seminar room 317

Dates	Lecturer	Topic
17.04.2024	Signal transduction of lymphocyte activation	O. Janssen
24.04.2024	Mucosal immunology	B. Messner/ P. Bacher
01.05.2024	Maifeiertag	
08.05.2024	$\gamma\delta$ T cells in infection and cancer and functional phenotyping of T cells by flow cytometric methods	D. Wesch
15.05.2024	Cell growth and programmed cell death (I)	D. Adam
22.05.2024	Cell growth and programmed cell death (II)	D. Adam
29.05.2024	B cell differentiation and the germinal center response	A. Hutloff
05.06.2024	Antigen-specific T cells in immune pathology, infection and cancer	A. Scheffold
12.06.2024	Immunological memory	L. Bauer
19.06.2024	Regulatory T cells	A. Scheffold
